

WE TEST IT. YOU CAN TRUST

CAT® CERTIFIED USED EQUIPMENT

Cappower

**BEFORE YOU PUT A
CAT CERTIFIED USED
MACHINE TO WORK,
WE PUT IT TO THE TEST.**

There's used equipment, and then there's Cat® Certified Used. We take low-hour, well-maintained machines and inspect them inside and out. Once a machine meets our tough standards, we use only genuine Cat parts for service, complete all the required maintenance, back it with a Caterpillar warranty and turn on the connectivity (if equipped).

The result? A used machine you can trust to deliver good-as-new performance and peace of mind.

SELECTED, INSPECTED & SERVICED TO A HIGHER STANDARD.

UP TO **140** POINTS INSPECTED

Every machine must pass a comprehensive 140-point inspection. If that reveals any issues, highly-trained technicians service it using only genuine Cat parts.

They also complete all the most recent maintenance, so you don't need to worry about changing oil or filters until the next interval.

SERVICE HISTORY

Many machines come right from our rental fleets, so you'll know exactly how your machine was maintained, and a documented service history is available, so you can make an informed decision BEFORE you buy. Having the complete service record in hand can help you obtain a higher resale value when you're ready to sell, too.

LATE-MODEL EQUIPMENT

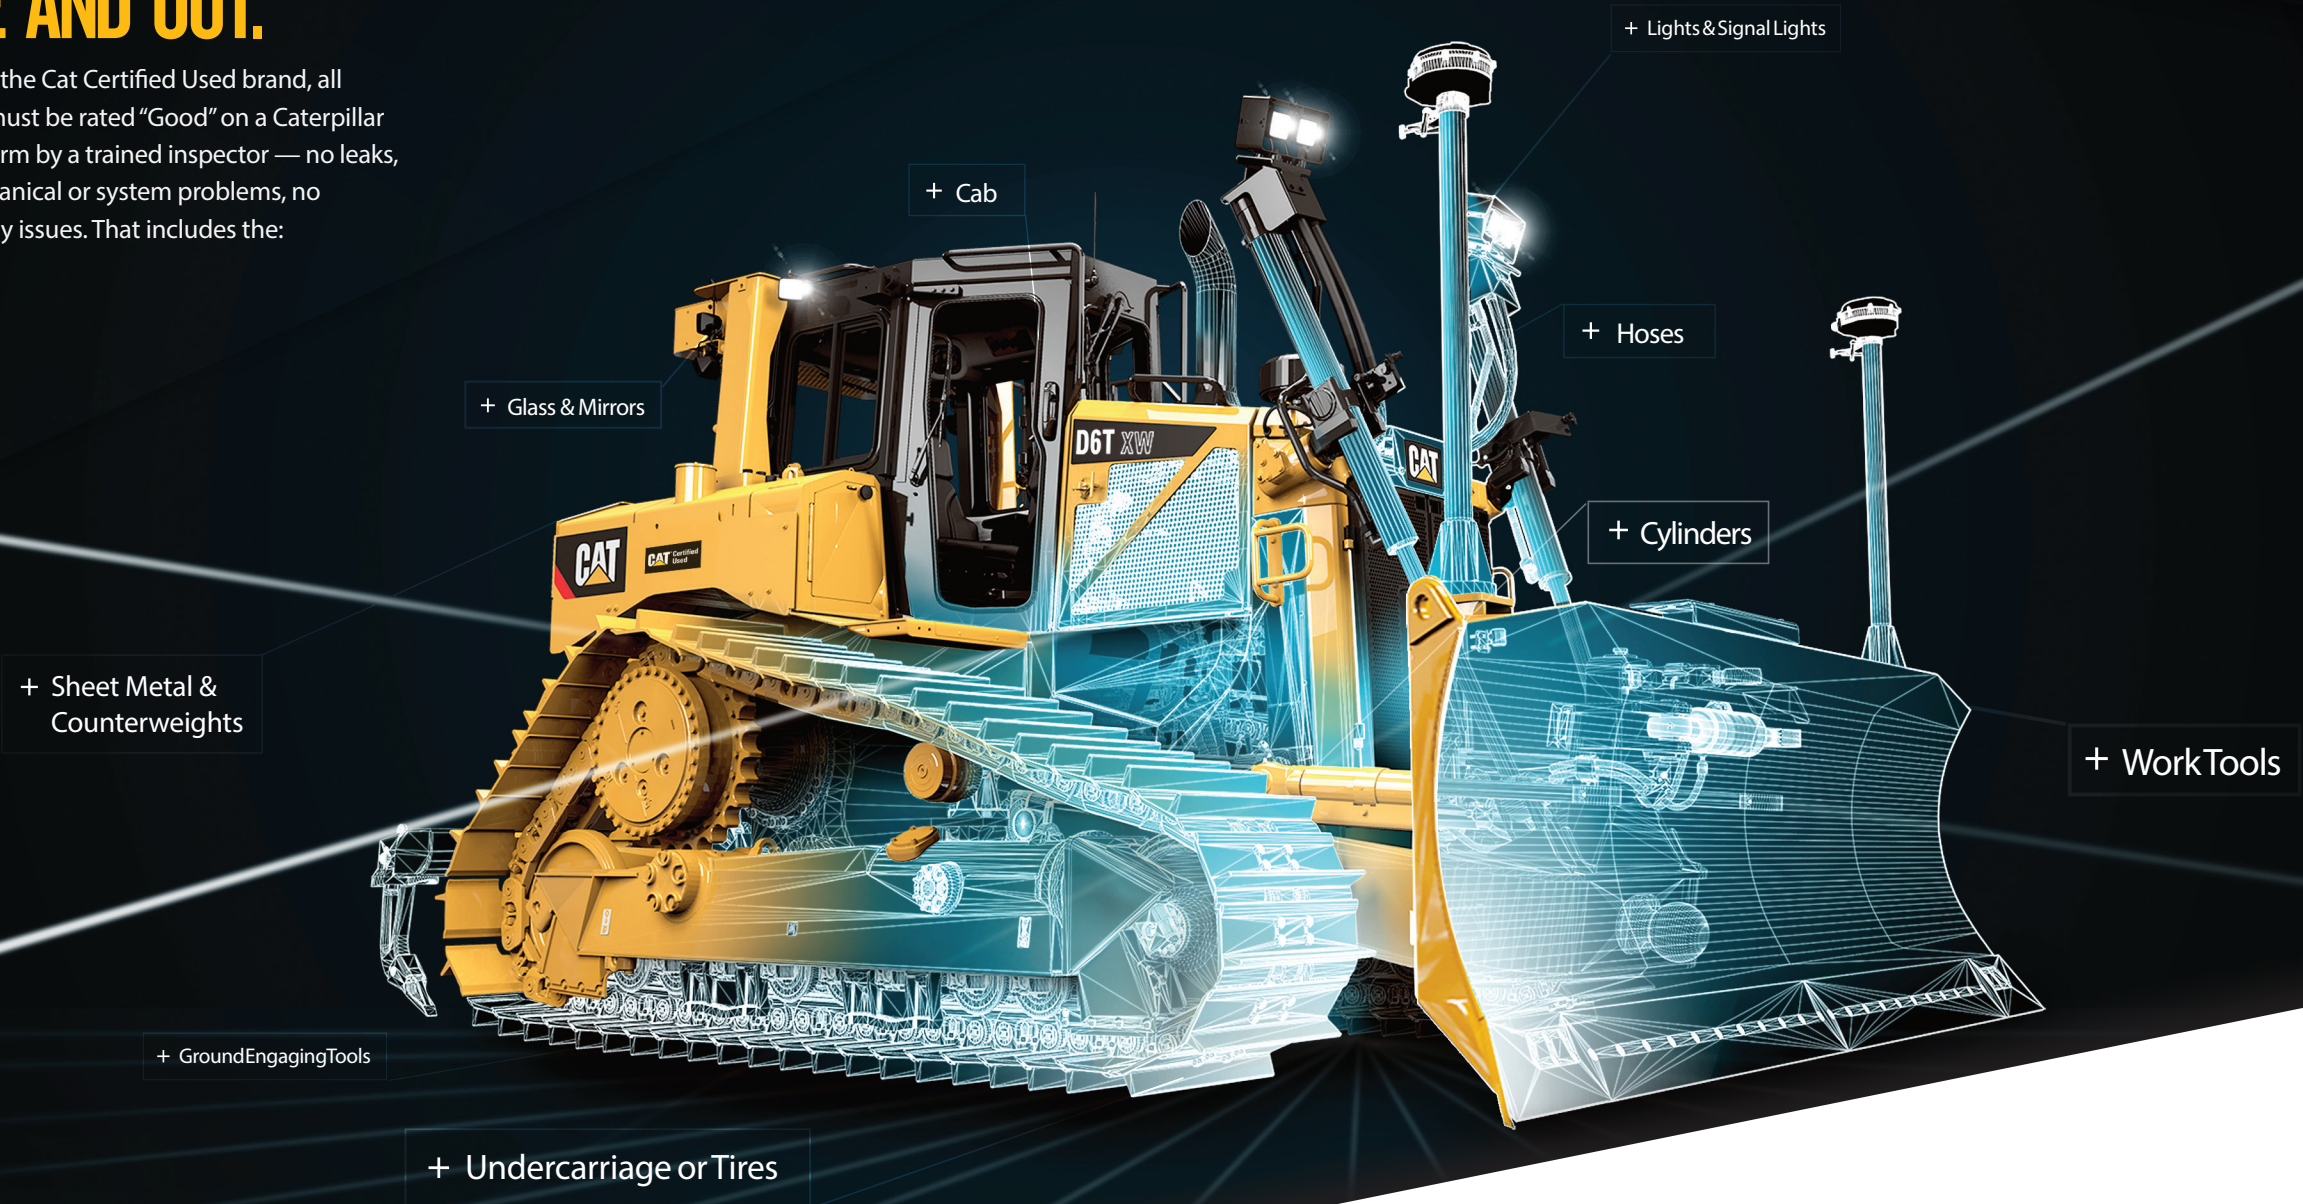

Every Cat Certified Used machine is a late-model product that delivers like-new quality and reliability, as well as many of the same technology and operator comfort features as today's models."

MORE THAN **70** COMPONENTS PROTECTED

A Caterpillar Equipment Protection Plan (EPP) that covers more than 70 powertrain and hydraulics components comes standard — extending your protection beyond the original factory warranty and helping you limit unexpected repair bills.

GOOD AS NEW INSIDE AND OUT.

For a used machine to earn the Cat Certified Used brand, all systems and components must be rated "Good" on a Caterpillar standard used inspection form by a trained inspector — no leaks, no visual damage, no mechanical or system problems, no excessive wear and no safety issues. That includes the:

TURN ON THE CONNECTIVITY. TURN UP YOUR RESULTS.

If your Cat Certified Used machine comes equipped with ProductLink™, your dealer will make sure you're connected. If it's not, upgrading your machine to include connectivity is simple. Once you're connected, you can download the Cat App or visit My.Cat.Com for fast, easy access to equipment hours, location and health data — wherever you are. That information will help you make decisions that boost productivity, lower costs, simplify maintenance, and improve safety and security in your operation.

CHOOSE MACHINES THAT PASS THE TEST. CHOOSE CAT CERTIFIED USED.

Check out all the low-hour, well-maintained, thoroughly inspected Cat Certified Used machines available at your local Cat dealer. Or search the full inventory on [CatUsed.com](https://www.catused.com) to find exactly what you need.
